Jessica just read inside about 5 new cool tricks she can make her Adelphia DVR do - just by using her Adelphia remote control. She's feeling powerful.

Go ahead...read for yourself. Get the power.

Your Adelphia DVR Puts YOU in Control.

Look at all the new cool things you can do - with your Adelphia DVR!

We made these upgrades without touching your box! You don't have to do anything either - they're already there!

YOU ASKED FOR...

A Way to Play It from the Beginning

If your DVR is currently recording one of your favorite programs and you'd like to watch it, go ahead and jump in. Because now you can play the program from the beginning even while it is being recorded.

YOU ASKED FOR...

A Quick Way to Go Back to "Live" TV

Now you can go "Live" anytime! Simply press one button to switch from a pre-recorded program to live TV on the last channel you were watching.

YOU ASKED FOR...

Faster Speed for "Rewind" & "Fast Forward"

Try out the new 4th arrow that displays on the banner for Fast Forward and Rewind and watch how fast you can go.

YOU ASKED FOR...

A Way to Plug in Your Digital Camera, Gaming Console or Camcorder

Tired of moving around your entertainment system every time you want to plug in your digital camera or gaming console? Now plug in to the front auxiliary inputs on your DVR and play away on your gaming console, or plug in your camcorder and watch your son's graduation. *Note: This feature is only available with selected models.*

REMEMBER...

Your DVR Records HD Programming Too

If you are watching your favorite movie in HD but you have to go run an errand, simply ask your DVR to record it for you. Capture every detail in high definition and watch it at your command. *Note: Feature only available with models that are HD capable.*

Quick Reference Guide to your new Adelphia DVR features

1 How to Play It from the Beginning

If your DVR is recording one of your favorite programs, but you want to sit down and start watching it from the beginning, simply:

1. Press "List"
2. Scroll to the program being recorded, then highlight it and press "Select"
3. You will see two choices - "Play it from the beginning" and "Play it from current location"
4. Highlight "Play it from the beginning" and press "Select"

2 How to Get Back to "Live" Television

Are you watching a recorded program but you would like to go back to the last channel you were watching live television on?

1. If you have a silver remote control - press the black half-moon shaped button right below the red Record button on your remote
2. If you have a black remote control - press the blue LIVE TV button

3 How to Get a Faster "Fast Forward" and "Rewind"

1. For faster fast forward, press the Fast Forward Button on your remote control **three times**. Works with rewind too!
2. When you press it a **fourth time**, you will be in "faster mode".
3. Now sit back and watch how fast you can go!

4 How to Switch from TV to Digital Camera, Games or Videos

1. Connect your digital camera or camcorder into the Aux Input
2. Switch to auxiliary input source by pressing Video Source key on your remote control
3. Banner will display on television screen and will change between "Cable" and "Auxiliary" each time you press your Video Source key on your remote
4. Select "Auxiliary" and proceed
5. IMPORTANT: Don't forget to switch back to "Cable" to watch your regular programming

5 How to Record Your HD Programs

1. Simply tell your DVR what HD programs you'd like to record. It's that easy!
