

Just saved another one from making the wrong choice! Saved them money, too!

Adelphia

Ted continues his passionate mission to help folks make the right choice for their TVs this summer...

It's a shame that satellite customers must often sign contracts that limit their freedom of choice. And some satellite customers learn too late they must wait for service, because satellite does not have local service offices. Ted does not want you to be a victim! He's here to help!

He wants you to know you can get **over 120 channels for under \$30 a month** straight up until 2006. Ted also wants you to know that with Adelphia you get customer service from local people, who are your neighbors, and there's no long-term commitment to sign. He has more for you, too! Also included in this special are:

- All your favorite local channels at no additional cost
- Extra rooms without any additional monthly fees
- A digital receiver and remote control
- FREE installation

Adelphia's Video On Demand comes standard, too. Now, a library full of movies and programming is ready and waiting for you to view them on your TV!

Sale Ends Memorial Day!

Adelphia Classic Cable
ONLY
\$29.95
a month until
2006!
